Md Amir Alam

Web Developer

As a web developer with around 2 years of experience, I have a strong understanding of web development technologies and methodologies. I have successfully designed, developed, and maintained a variety of websites and web applications, and I believe I am capable of doing the same for your organization. I am always looking for ways to improve my skills and stay up-to-date with the latest trends and best practices in web development.

Experience

2021 - 2022
Tarnea Technology Solutions Ltd. l Hsr Layout Bangalore Karnataka
Front End Developer

I'm worked on two projects, all that projects related to pharmacy.

1. Consumer Application
This website is for medical shops.
Suppose you have a medical shop and you want to sell medicine also online, so Tarnea provides a consumer application that application you would sell medicine online with a simple registration process.
In this project, we used technology like ReactJs, Bootstrap, and Redux.
https://consapp.irevo.in/

2. Tarnea Irevo Portal (Admin Panel)
This project is basically for the customer using the Tarnea Consumer Application.
In this project, we display the:
The customer details
All the medicine sold during the month/year
Which of the medicine sold more in a month
The Payment option like Upi and cash
The delivery options like store And home delivered.
In this project, we used technology like ReactJs, Bootstrap, and Redux.

2022 - 2023 Present
42Works Info Solutions Ltd l Chandigarh Punjab
Web Developer

1. Law For Me
This is U.S based project.
This website is for clients who want to need Lawyers
Suppose we have any case or any FIR something so that we do have not much knowledge to find a good Lawyer for a particular subject.
Law For Me offers expert legal advice, document creation, and dispute resolution without the need for a lawyer. This saves time and money while simplifying complex areas of the law. Our platform also provides access to city lawyers with live video consultations and chat. We offer a virtual dispute resolution platform using mediators or arbitrators to resolve disputes, avoiding the stress and expense of the Court. Our innovative approach provides new thinking in the legal industry.
In this project, we used technology like ReactJs, Bootstrap
